THE HONEST MENWON

Exciting Ball Game Between Lawyers and Journalists.

DEEP LAID PLANS FOILED.

The Erudite Players Simply Pulverize the Legal Lights.

LIVELY GAME AT WASHINGTON.

A Pittsburger Favors the Proposed New Players' Brotherhood.

GENERAL BASEBALL NEWS OF THE DAY

There was an exciting ball game at Recreation Park between the lawyers and the newspaper representatives. The latter won, and the lawyers caused a scene. There was a tively time in the Washington-Indianapolis game. A Pittsburg business man will support the new scheme for a new baseball or-

The ball game yesterday at Recreation Park between the lawyers and the newspaper men resulted in a glorious victory for the latter. This important fact is now a matter of history, despite the deep and dark designs of an aggregation of unfortunate lawyers, aided by two of the most unscrupulous umpires that have ever persuaded themselves they could judge the rights and wrongs of ball playing. The game, undoubtedly, was one of the most lively and exciting that has been seen in this city, and what it lacked in what Pfeffer would call scientific ball was made up in the heroic, though sometimes unsuccessful, efforts of the newspaper men to do extraordinary things.

From the start the 1,000 ladies and gentlemen present could see plainly enough that there was a deep laid scheme on the part of the experts of cunning to defeat the honest repreentatives of an untrammeled and irreproachable press. The umpires were two desperate rless men. It was intimated in this paper vesterday that rumors of a somewhat ing. These rumors were to the effect that the lawyers were tampering with the appointed umpires. The newspaper men, in their innucence, gave little or no credence significant reports, but the events of yesterday recalled them vividly to

NO DIRECT EVIDENCE.

Of course, there is no direct evidence honesty was indulged in and, therefore the preposterous attempts all round to deprive the ewspaper representatives of glory and honor that were theirs by merit, may be deemed to be the result of gross incompetency and a deplorable lack of judgment.

It was one of the umpire's duties to stand behind the catcher and judge balls and strikes. He did so, but in a way that made many a gray hair on the heads of people who favor fair dealing. The other umpire was, undoubtedly, either under the influence of some terrible legal threat or he was umpiring under the rules of 40 years ago, or even when Deacon White was young. It was often loudly and publicly as-serted during the game that Mr. McLean never saw the plate at all.

HONESTY TRIUMPHED.

However, there is a Providence that guides the right to success despite all the forces of its foes. Victory perched on the banners of those | he can, who earned it honestly and by merit. That being the result, all can be forgiven and a sincere hope expressed that the ill success of yesterday's deep laid scheme will have some good effect on the minds of the legal lights when pleading for the wrong side of a case. If this be the result then most certainly will yes-terday's affair be forgotten, except that it may be remembered as two hours of genuine fun. It may not be worth while to use harsh words now, and the flagrant mistakes of the umpire now, and the nagrant mistakes of the umpire and unfair demands of the lawyers may be attributed to an over-enthusiasm combined with an oversupply of zeal to do up the literary people of the city. Off the ball field the umpires and lawyers are perfect gentlemen, but they evidently are of a Dr. Jekyll-Hyde nature.

THE DEFEATED NINE.

But if the defeated nine yesterday are no better lawyers than they are ballplayers, they cught to have a State appropriation to help their team, fully expecting to mop up the dia-mond with their opponents. They also had

KNOCKED SCHOYER OUT.

S. B. Schover was knocked out of the box and the lawyers tried two other pitchers and still couldn't win. Kicking comes as natural to a lawyer as it does to a mule, and the lawyers' team, when fairly beaten in the ninth inning. made a tremendous kick. When the ninth inning commenced the score was 10 to 10. The lawyers didn't get a run in their balf, and the newspaper men got one run in, with three men on bases. The lawyers argued that the score was then 11 to 11, but the official scorer, Mr. was then it to it, but the official scorer, Mr. George Welshons, a geotleman of unmistakable character, and appointed by the lawyers, declared the score II to 10 in favor of the newspaper nine. Victory was then proclaimed, although a few more innings were played to amuse the crowd. The score shows on which side the hitting and good playing were to be found.

HAD A LIVELY TIME.

The Hoosiers Bent the Senators, but Fight for It.

WASHINGTON, September 10.-The game here to-day between the Washington and Indianapolis teams goes on record as a victory for the visitors. When the Washingtons went to the bat in the eighth inning the score stood 9 to 7 in favor of Indianapolis, and at the end of the Senators' half of the inning the score stood 11 to 9 in their favor. In this inning they batted Rusic very hard, and as it was fast getting dark, Captain Glasscock wanted the game called, and wasted at least 15 minutes in area called, and wasted at least 15 minutes in arguing with the umpire. Then the visitors refused to put the side out, but the Washington players, according to the rules, put themselves out by hitting the ball and running out of line. Three men were disposed of in this manner, and then the visitors went to the bat to complete the inning. Denny, the first striker, claimed that he could not see the ball, and McQuaid allowed the claim and called the game on account of darkness. This decision so incensed the already excited spectators that they made angry threats against

the umpire, and several excited persons attempted to mob him, but police were too numerous. For a time matters looked rather serious, but several arrests were made and quiet restored. Score:

ABOUT THE HOOSIERS. Everybody Pleased With Young Rusie's

Work-More Players Wanted. SPECIAL CORRESPONDENCE OF THE DISPATCH. INDIANAPOLIS, September 10.-The friends of the Hoosier baseball team are, very nat-urally, highly pleased with the splendid record made by the club since it started on its last trip abroad, two weeks ago to-day, and there is much joy at home. The most liberal estimate gave the team only 10 out of the 28 games it

number would be somewhat reduced. That the team has done so well is really remarkable, in view of the fact that for the past week Boyle and Rusie have done all of the pitching, especially as the games were with the two League leaders. As a matter of fact, no one here thought the Hoosiers would get a sinone here thought the Hoosiers would get a single victory in New York in their crippled condition, and the success of the team against the Giants was all the more gratitying. The club has played a remarkable game in the field, and Boyle and Young Rusie have stood up to their work in a manner that deserves the warmest praise. While Boyle has done great work, Rusie has really surpassed the wildest hopes and expectations of his friends by his fine showing. He broke the record by pitching four full and one eightming games in succession; and further than that, he won three of them. His work in Boston and New York was all that could be asked of any man, much less an amateur. The manof any man, much less an amateur. FAVORS THE PLAN.

A Pittsburg Business Man Will Support the New Brotherhood Scheme.

Whatever may be the utopian features and apparent shortcomings of the "brotherhood" scheme proposed by Messrs. Johnson and Ward, it has found a prominent supporter in Pitts-burg. He is a gentleman well provided with the where-with-all to give the plan a good test in this city should he be asked to do so. Not only has he plenty of money at command, but he can secure Exposition Park for any club that may be placed here. He is enthusiastic about the matter, and has a few good sup porters. He, however, declines to have his name publicly mentioned in the scheme until efforts are made to have a team organized here. Yesterday afternoon he said to the

writer:

"I am firmly convinced that the scheme is a good one, and I know that Mr. Johnson, of Cleveland, is a determined man and has any amount of money at his disposal. If the scheme is put into practical shape Exposition Park can be secured in this city for the team. I really don't see why the plan cannot be carried out successfully. If all the good players in the League, organize thoroughly and join the proposed brotherhood they could reap their respective shares of the profits, and that would undoubtedly be sufficient inducement for them to leave the League and commence business. to leave the League and commence business for themselves. There is no law to prevent the players from making an organization of their own, and if they do so, depend upon it, they will be the attraction of the baseball world. Other leagues or associations will not be able to cope with them."

MCKEESPORT, PA., September 10 .- But tw days and John Teemer and Jake Gaudaur will meet on the Monongabela river in the four mile single scull race for \$1,000 a side to decide who is the best oarsman. To be governed b had to play while away, and when Getzein was injured in Cleveland it was thought that this it can be said that it will be the hardest single scull contest that has occurred in America in late years, and everything seems to point that way to-day. At the time the race is to be rowed St. John and Hanlan and the oarsmen complete the arrangements for the big regatta to be held at that place, and will make it an open one. Hanlan will be among those who will enter it.

The difference to-day between the carsmen who will row Friday is this: Teemer looks happy, cheerful and full of life, and goes about as briskly as a young boy. He rows hard in his old boat, and takes as much care of it as he does of his fine mecals. Whether or not he rows trials that are satisfactory and keep up his spirits is not known. Gaudaur moves about slowly and systematically. He rows hard and seldom smiles. He is quiet and looks stern and resolute, and when going out in his boat his looks would imply, if I don't win the race it will not be my fault, and those are the words he uttered in answer to the query, Who's going to win? He talks but little, appears to have his mind on the race and rows hard for condition. Hamm carries a stop-watch when they go out, which or any magning of the diamond next season, and it certainly looks that way. He is a man of wonderful physical strength and endurance and is always willing to go in and do the best he can.

The Leader of the London Strike Very Angry at This Sympathy.

A CARDINAL'S COMPROMISE SPURNED

The Strikers Are Living in Clover, and Are by No Means in a Hurry.

The great London strike seems as far from settlement as ever. Another compromise proposition has been refused by the men. John Burns denounces the course pursued by the American workingmen in not sending more substantial sympathy.

LONDON, September 10 .- Cardinal Manning's proposal, which is being considered by the council of the Strike Committee, is to the effect that the terms which the dock companies have already conceded are to go into operation on the 1st of November, provided the men immediately resume work. The proposal made by Cardinal Manning, which is an independent effort on his part to effect a settlement, has not been referred tothe dock directors, nor has it been approved by the council of conciliation, several members of which are out of town.

Mr. Burns, at a mass meeting of strikers to-day, asked the men whether they would accept the proposal for the increase in wages to begin in November. The strikers unanimously opposed the proposition. BOTH SIDES FIRM.

The directors of the dock companies reso lutely adhere to the terms recently agreed to by them, by which the wages of the men are to be advanced on the first of January. Hitherto the directors have held a meeting twice daily. To-day only one short and formal sitting was held, and several direct ors were absent. A leading director, Sir Henry Le Marchant, will resign, owing to the decision of the board in favor of the

Lord Mayor's proposal.
Mr. Burns, at to-night's conference with Cardinal Manning, affirmed that the temper of the strikers was such that it would be futile to urge the November compromise. Referring to the Lord Mayor's recent remark, "You are the strike," Mr. Burns denied that he could influence the vast body of nen against their united will.

The persistence of the strikers increase with the swelling of the tide of subscrip tions. The home contributions are slightly funds. To-day £1,400 was received, making a total from Australia of £15,500.

THEY ARE LIVING WELL. The Church relief activities are increasing

The result is that many dockmen fare better in idleness than when working. Foremos among the agencies of relief is the Salvation Army, which provides food for 8,000 per-sons daily at a nominal price. Throughout the strike districts rents are largely in arrears. Feeling no pinch of distress, the temper of the dockmen is not toward a com-In the meantime, in spite of the strikers'

pickets, the companies are gradually replen-ishing their working forces. The Home office, in response to the appeal of the mem-bers of the Corn Exchange for the protec-tion of workmen against the striker's pickets, to-day largely augmented the force of police around the docks and provided an additional steam launch to patrol the river. The congestion of the river trade is be-coming relieved by the wharfingers gener-ally accepting the men's terms. A number of vessels are leaving the docks and going to the wharves to unload. The wharves present strike.

THEIR SIDE OF THE CASE. Several dock directors were interviewed to-day regarding the situation. They all commented on the assertion made by the newspapers that the companies were dis-

turbing trade, while only a small amount of money was involved in their dispute with the strikers. It has been alleged that the concessions of the men's terms would cost the companies only £50,000. The directors said that this is a gross mistake; that the increase demanded would amount to £150,000 yearly, meaning £5,000,000 capital

Addressing a meeting of strikers Mr. Burns again assailed American workmen for their failure to contribute money in aid of the strikers.

"With all their boasting and bluffing, he said, "they have given nothing. If ever the dockmen were in a position to congratu late themselves it is now, for no less than £7,000 was received yesterday alone. But nary a red cent came from America. As for their sympathy I would say, '--- your pity, give us your bob.'"

STILL SMOULDERING. The Great Fire at Antwerp Not Yet Entirely

Extinguished. ANTWERP, September 10 .- Estimates of the loss by the recent fire range from 25, 000,000 to 35,000,000 francs. No public building was injured. The damage to the Bourse is insignificant. The fire still smoulders over a large area which is surrounded by a cordon of troops. The firemen are working night and day pouring floods of water upon the ruins. Ten persons who ventured too near the ruins have met with accidents, due to the occasional explosion of cartridges. The vessels in the docks owe their safety to the favorable direction of the wind, which continues to blow toward the open river. Some steamers in the dry docks are badly damaged about the decks.

M. Corvilain, the proprietor of the cart-ridge factory, is charged with homicide by imprudence. His defense is that the fire originated in the petroleum sheds, and caused the explosion in the cartridge fac-tory. Large subscriptions to the relief fund have been received. King Leopold heads the list with 12,000 francs. Relief fetes and performances have been given in Brussels, Paris and Berlin.

20 Doctors Said She Must Die

Miss Morgan, of this city, speaks:

"The catarrh in my system caused me to be continually hawking and spitting. I had a short, backing cough, tightness in the chest, short breath, and I felt weak and tired all the time. As I grew weaker I suffered with those terrible night sweats. My father took me to 20 physicians who said I could not be cured. Some all my friends thought I had consumption. I doctored with many physicians, but got no better. In fact I was gradually getting worse. After 14 years of suffering I began treatment with the physicians of the Catarrh and Dyspepsia Institute, 323 Penn avenue, to whom I owe my recovery. My cough is gone. I have no disniness, ringing in the ears, headaches or night sweats any more. The pain and soreness in my stomach have lett me. My food digests well, so that now no gas forms in my stomach. My throat used to be so sore I could hardly swallow. That is cured. I feel well and strong, and why should I not praise these doctors for thus saving me from such an untimely death.
